

Community Link Project

In 4B today we have taken part in an art workshop. This is the next step on our journey for the 'Bury Community Link Project'. An artist, Mandy, visited and inspired us with her art work and poetry. The theme of the session is looking after the environment. Some of our art work will go to Summerseat Primary in Bury and we will receive some of their art work. Fostering good community links like this helps build mutual respect for others which is one of our British Values.
